- CBSE Board

PERSONAL PROJECTS

Snake Water Gun Game

- Developed a "Snake Water Gun" game using C++ OOPS Concept. The game is played between two players, and each player chooses one of three options: snake, water, or gun.

Web Scraping Automation

- Developed a web scraping automation tool using RPA (Robotic Process Automation) and UiPath.

Expense Tracker App

- developed an expense tracker app using React JS that allows users to track their daily expenses and manage their budget.

React 3D Portfolio

- developed a 3D portfolio using React JS, Framer Motion, and React Three Fiber that showcases my web development projects and skills in an interactive and visually stunning format.

JavaScript Music Player

- Developed a music player using JavaScript that allows users to play, pause, skip, and repeat songs.
